HP DesignJet Series - How To View The Endless Roll Option In The Plotter Driver Application Page Size

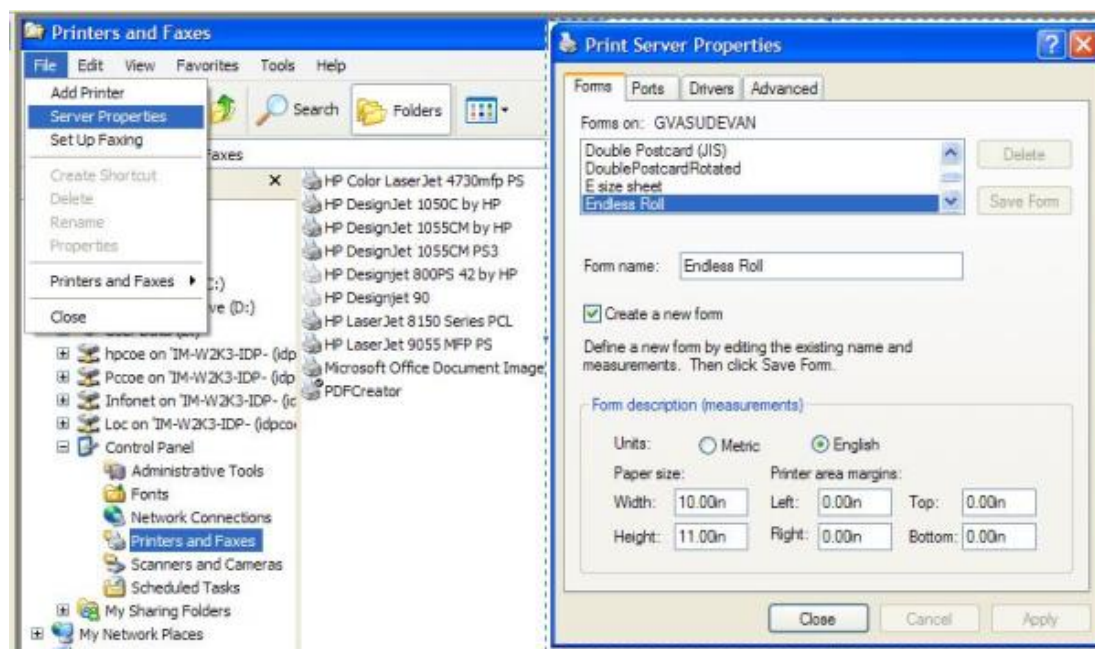

Issue:

There is no **Endless Roll** option to select in the plotter driver's **Application page size** drop down menu.

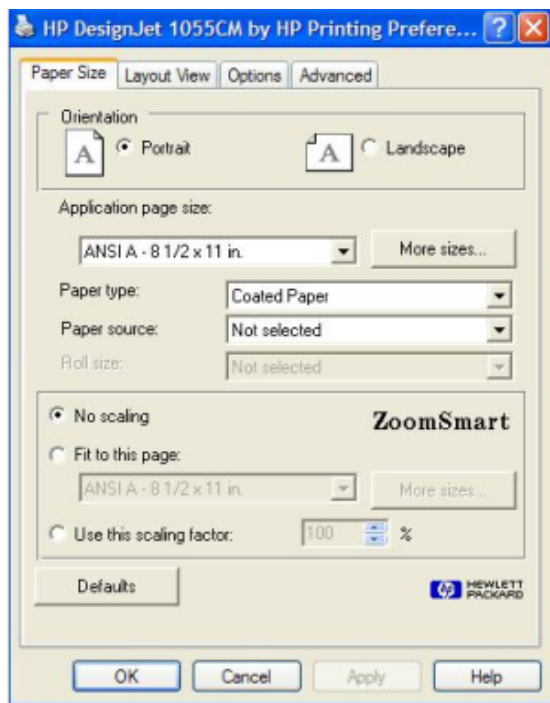

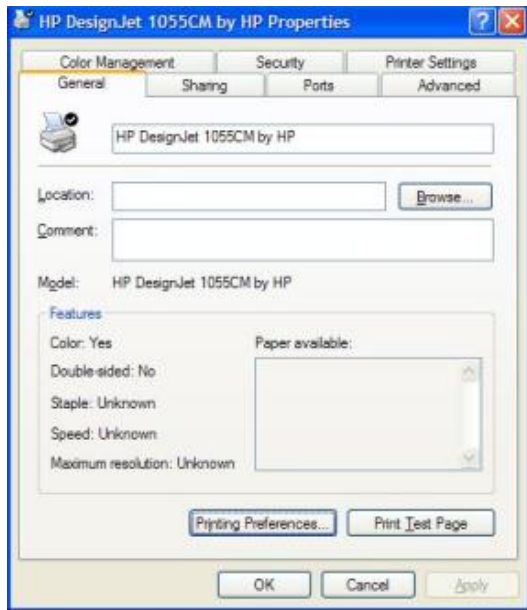

Solution

To view the Endless roll option in the plotter driver custom paper size, follow these steps:

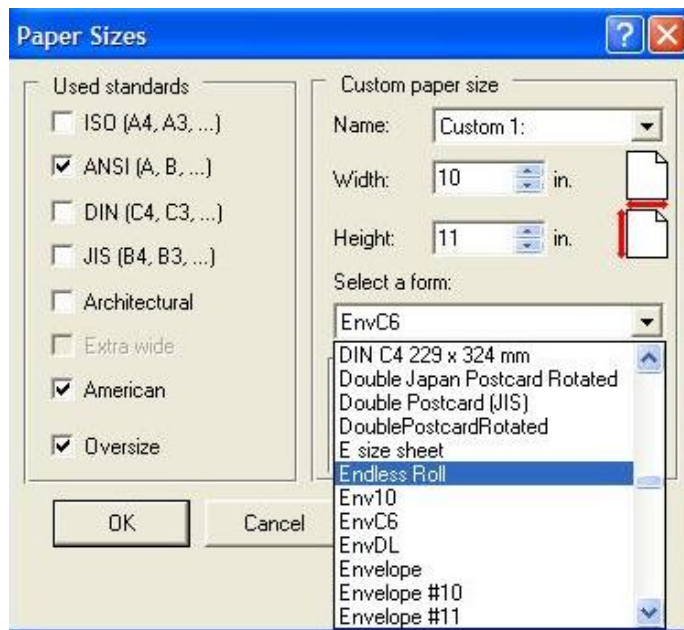

1. Go to **Windows Explorer > Control Panel > Printers and Faxes > File > Server Properties > Forms** and check the **Create a new form** box.

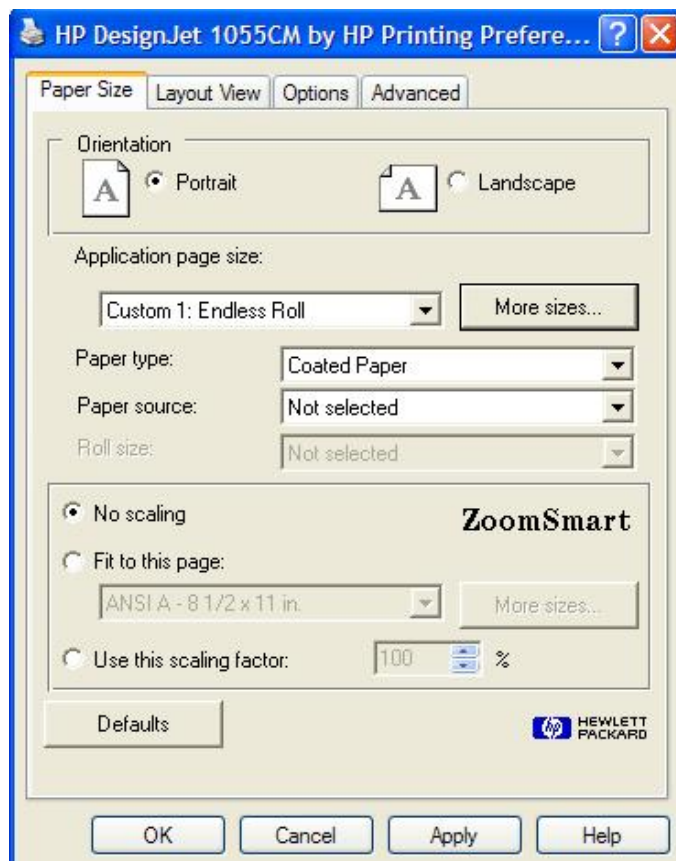

2. Enter **Endless Roll** in the Form name and click **Save Form**.
3. Now the **Endless Roll** option will appear in the drive settings custom paper size.
4. To select the custom paper size as **Endless Roll** select the plotter **Driver Properties > Printing Preferences > Paper Size**.

Select more sizes and select **Endless Roll** from the **Select a form** drop down and click **OK**.

The Application page size will be displayed as Custom: Endless Roll.

5. This will enable the plotter driver to select custom paper size as **Endless Roll**.

6. Selection of the Custom size will vary from one plotter driver to another.
