

05-05-2021 Member Meeting

Meeting

Introduce new members

President's comments:

- Reminders:
 - Everyone must ALWAYS wear a face mask when they are inside a building.
 - No more than 3 people to a large room. Classes can have 4 (instructor and 3 students). Maintain a social distance of at least 6 ft.
 - Current associates can have door rights until if they have taken new member orientation and at least 1 red tool class.
 - We would like to bring back small classes. Please consider helping teach a class.
 - **Nothing has changed even if you are vaccinated**
- Things that have not changed:
 - The space may NOT be used;
 - for social gatherings,
 - for group recreational activities,
 - as a substitute for a home office, work from home, or remote office.
 - In many cases, the sites will be used for masks, face shields, or other pandemic support activities, and those activities will be given priority.
 - We have provided hand sanitizer and sanitizing wipes for use in the facilities and request that each member wipe down any parts of the facility used before and after their use.
 - If you are an associate member requiring access, please send an email to AugustAccess@makersmiths.org so we can set you up on the August smart lock. We will need your full name, cell phone number, and the first date you plan to visit the space.
 - If you must drop your membership for financial reasons let us know. We maybe be able to work something out. Send an email to info@makersmiths.org
