

Github and Software

Makersmiths has a public Github repository that we use to store tool configurations and software projects for space management. The repo URL is <https://github.com/Makersmiths>

Currently there are three repos

Rostock Max Configuration <https://github.com/Makersmiths/Rostock-Max-Configuration>

Makersmiths Stop Light <https://github.com/Makersmiths/DoorStopLight>

Makersmiths Door Control <https://github.com/Makersmiths/Door-Access>
