Github and Software

Makersmiths has a public Github repository that we use to store tool configurations and software projects for space management. The repo URL is https://github.com/Makersmiths

Currently there are three repos

Rostock Max Configuration https://github.com/Makersmiths/Rostock-Max-Configuration

Makersmiths Stop Light https://github.com/Makersmiths/DoorStopLight

Makersmiths Door Control https://github.com/Makersmiths/Door-Access
