

New member orientation

Once you've joined the Makersmiths, attend a "New Member Orientation" class, which is mandatory to gain access to both spaces in Leesburg and Purcellville, most of our tools and the available materials. Check the [Calendar on our website](#) for dates and times.

The orientation will introduce you to who we are, how we got here, where we are, how to get in touch with fellow makers and opportunities for contributing:

- Mission
- History
- Organization
- Rules & Policies
- Safety precautions
- Detailed information on the locations and available tools
- Communication with other members and our leadership
- Volunteer opportunities

It is aimed at providing answers to 99% of the questions new members typically have. Well worth the attendance!
